Paid Media & Growth Marketing — Consumer & B2B AI Products

cara.liquanqiu@gmail.com · Open to relocation & visa sponsorship

SUMMARY

Paid-media and growth operator who has **planned, bought, and optimized paid media end-to-end** — channel mix, budget allocation, creative testing, and ROI measurement — to take multiple consumer AI products from **0-to-1** across the US, LatAm, and other Tier-1 markets. Fluent across **Meta, TikTok, and Google (Search & PMax)**, with adjacent B2B / decision-maker experience (SMB & KA acquisition, enterprise strategy). Strongly analytical, comfortable owning budgets and defending channel bets with data — and I build the AI creative pipelines that keep paid media supplied at speed.

EXPERIENCE

Growth & Paid Media Lead · PawLogic

Sep 2025 – Present

Early-stage consumer AI startup — took an AI agent-community product and AI media products to overseas markets (consultant → full-time).

- Owned **paid acquisition** for a new consumer AI product: built a **Meta test matrix** across audiences, angles, and creative formats, landing **\$3 US CPI at 30% Day-1 retention**; set channel mix and budget across paid, organic, and community.
- Ran the full **paid + funnel loop** end-to-end (Reddit research → paid → Discord), landing the first 50 users and scaling to **~10K DAU in 2 weeks**.
- Built an **automated creative pipeline in Claude Code** (competitor-angle mining → ad messaging → creative production → landing pages → performance review) to keep paid channels supplied with fresh, on-message creative and cut creative-refresh lead time.

Market Lead, Drama.Land (AI music-video) · PawLogic

2025

- Owned **paid media strategy end-to-end across Google (Search, PMax) and Meta / TikTok** — channel architecture, creative testing, budget allocation, and performance review — scaling the product to **\$1M ARR in 4 months** (Google ROAS >0.6, Meta ROAS ~0.8).
- Managed **vendor / media partners** for execution; built the 0-to-1 **affiliate / CPS program** and modeled **blended ROAS across creator + paid** (exposure → private-link distribution → download attribution) to find the best creator × angle × CPM combinations.
- Ran **onboarding** → **paid-conversion A/B tests** across bucketed landing pages; set subscription / credit pricing from gross-margin analysis to protect ROI as spend scaled.

Growth & Integrated Marketing Lead, New Products · Meitu Inc.

Jun 2023 – May 2026

Publicly-listed consumer imaging & AI company (HKEX: 1357). 70% new-product growth (carrying revenue targets) · 30% global strategy, reporting to CPO.

- Owned **paid media (Google, Meta)** plus creators, community, and SEO for two AI products (RoboNeo, MVLAND) carrying revenue targets; **RoboNeo hit #1 in its iOS category in 10+ countries** and #1 overall in Brazil.
- Set **channel mix and creative strategy** — blended mega-creator reach + mid-tail UGC + paid amplification — to **~10M impressions and ~100K DAU**; MVLAND became the division's fastest-growing product (~\$500K ARR at departure).
- Built a company-level **automated market-monitoring system** (share, scenarios, competitors across app + web) that informed budget and new-bet decisions across **6 business units**, plus GTM/strategy for four units.

Product Manager, AI Creative-Asset System · Meitu (concurrent side project)

Dec 2025 – May 2026

Built AI media-ops infrastructure to solve creative fatigue for overseas paid-media teams.

- Led an AI system that **deconstructs winning ad videos and regenerates on-brand variants** (deconstruct → slot-swap → storyboard/copy → render), taking asset production from **~2 hrs each to hourly batches** and **freeing ~40% of headcount at 60 creatives/week** — directly feeding paid-media velocity.
- Owned quality operations: an **18-point QA checklist** and human-in-the-loop testing; cut multi-entity analysis latency from **10 min to 40 sec**.

Ad-monetization & moderation analytics; AI product innovation for trust & safety.

- Built and led a **5-person analytics team** across **ad monetization and content moderation**, focused on lifting ad revenue and review efficiency — hands-on with the advertising side of a large-scale platform.
- Led AI-product innovation for a **TikTok trust-&safety program** reaching **100K+ users** (detection → warning → intervention → referral).

EARLIER EXPERIENCE

- **Alibaba (Ele.me)** — Business Analysis Manager (2019): national merchant strategy, incl. **SMB & KA (B2B decision-maker) acquisition** playbooks and budget allocation.
- **New Oriental** — Business Analytics Lead, K-12 online education (2019–2020): built the 0-to-1 operating-analytics stack; **+20% market share, +10% paid conversion**.
- **Didi** — Regional Operations Manager, Melbourne / Tokyo / Latin America (2017–2018): overseas ops and driver-side supply to **30% penetration** in the Australia launch.
- **Accenture** — Senior Business Analyst (2013–2016): **enterprise (B2B) digital-transformation strategy** for large state-owned enterprises.

SKILLS

Paid Media: planning & buying · channel mix · budget allocation & trade-offs · Meta / TikTok / Google Search & PMax · creative testing · ROAS / ROI optimization · blended attribution (exposure → link → download) · vendor / partner management · upper- & lower-funnel

Growth & GTM: 0-to-1 market entry · affiliate / CPS programs · creator & UGC · SEO & owned channels · community (Reddit / Discord) · retention & monetization · A/B experimentation

Analytics & AI: data-driven decisioning · ML user segmentation (random forest) · Claude Code · OpenClaw · AI creative pipelines / workflow automation · FastAPI / Next.js prototyping

Languages: Mandarin (native) · English (fluent, working proficiency) · Spanish (learning)
